LAST UPDATE: 07-04-2025

GRAVITON is designed for all kind of uplight illumination tasks where high level of illumination is needed. It is able to withstand loads up to 1000KG. The luminaire is fitted with a pre-wired supply cable for inground application and internally potted to prevent humidity and condensation. GRAVITON is available with COB LED light source with choices of beam and color temperature. It can be used to illuminate plants, flagpoles, columns, building facades and other architectural works. We highly recommend that the luminaire lay out should be considered during specifying and planning processes.
